

Why me?

Why would you work with me?

Meetings with me are not about psychology, not about hypnosis (unless asked for), not about therapy and surely not about talks about you realizing what you already knew you had in your subconscious.

The goal for our meeting together relies strictly on Training, on Results.

Unless you have a GOAL, don't participate.

Our meetings are about a set of mandatory exercises you can do at home, in your office, in your card and straight after you're out of the meeting.

The training is based on the exercises you do with your Mind, your thoughts, in full control and discipline. Everything will be mental, not physical. You'll only have to get your neurons in motion in order to finish your Homework.

New segments of approaching reality will form the discipline you'll have to pursue. Meaning you'll learn to see with new eyes. Briefly you'll start to forge your own reality, by Yourself. In the first meeting, your training will be about creating a solid base, a thick pillar for your path to reaching your GOAL.

Furthermore, your training will be focused on a series of information and exercises that we'll do together. Then, you'll be practicing the same training by yourself.

We'll be able to consider the training successful the moment you'll FEEL/KNOW/SEE it had ended with the predicted Result or at least, with something very close to that result.

Why you shouldn't train with me?

Because I'm strict about the Goal.

The meetings can sometimes be seen as painfully conscious.

The training can only be made with mental sweat and properly done homework. To be more precise, you come and make EFFORTS.

Because I have great expectations if you decide to go for the Training.

Because I'm very demanding and clear about setting your Goal.

Because I'm not interested in your past. I'm only concerned with what you are, what you know and what you want to achieve.

Why Mental Training?

Hypnotherapy solves in a single shot the subconscious issues. Phobias, frights, frustrations, pains but also achieving and learning fast new attitudes and behaviors towards anything. Hypnosis finds the cause and eliminates it. Hypnosis gives you a new point of view which is accepted by the conscious mind.

Psychological meetings solve the above-mentioned problems, but it takes a lot more time. It's more time-consuming because it doesn't go straight to the point because it is based on becoming aware of the events in a conscious manner.

Mental Training Sessions reach a Goal through constant practice, discipline and executing daily tasks. It's the fastest, hardest and the most demanded Goal-reaching system.

The way in which people transform their mind, the way they develop financially, personally and spiritually is slowed down by the environment. Our brains are not made to take in this huge amount of information. Our minds need a SPECIFIC training, a series of exercises to get them to work in a rapidly changing environment such as the one we live in.

Why am I doing this?

I'm not accumulating for myself.

The more I expect from the people I work with, the more I gain.

The more I offer through Training, the more I gain. And I'm not referring to money or financial benefits. Im referring to collective knowledge

Mental Training = Happy Life = Will and Power

Share these thoughts and you'll help your friend achieve transformation.

The group of the clean and clear minded people salutes you.
